

## TopQM CQI-9/-11/-12/-15/-17/-23/-27 Auditor

Module 4.0

### Seminar only for Europe

The “TopQM-Systems CQI Auditor” training builds didactically on the AIAG-licensed module 3.0 (“Understanding AIAG CQI Self-Assessment”) and on the seminar documents provided; it is therefore also a prerequisite for attending module 4. Module 4.0 is a group-based auditor seminar for the CQI Special Processes. This seminar focuses on CQI auditor training.

#### Seminar contents:

- + Summary of the basic knowledge from module 3.0
- + Process orientation and turtle model
- + Applying process tables
- + Audit preparation
- + Audit execution
- + Scoring of the audit
- + Auditor qualification in accordance with CQI requirements
- + Integration in a QM system
- + CQI summary
- + Group work and knowledge exchange
- + TopQM-Systems final exam

#### Target Group:

Quality assurance and quality management employees, test and process designers, internal and external auditors, supplier liaisons, project team members

#### Customer benefit:

TopQM-Systems has been working in the area of supplier management for well-known companies in the automotive industry since 2000. The experience gained in live customer projects – such as advanced quality planning, start of new series production, process acceptance, supplier audits, claims management and process optimization – directly flow into our TopQM Automotive Seminars and are continuously updated. We are very familiar with the requests and requirements of our customers and we will prepare you to handle series processes in an efficient and robust way!

#### Certificate:

Each participant will receive the Certificate “Top-QM-Systems CQI-xx Auditor”. If any of the prerequisites are not met, the participant will

receive the certificate of attendance for "TopQM-Systems CQI-xx Audit".

xx = depending on the CQI-Standard registered for  
Retest will result in € 200,00 plus VAT or \$ 200.00 (USD) per participant added to the invoice.

The desired standards are quoted during the registration. Max. 3 standards per training are possible.

### Prerequisite:

In module 4.0, the pre-exam suitability assessment is conducted by means of a suitability assessment questionnaire in accordance with the AIAG CQI auditor qualification requirements, with answers recorded in writing by the consultant.

### The key prerequisites are:

- Auditor training in accordance with ISO 9001, IATF 16949, VDA 6.3 or ISO 19011
- Minimum of 5 years professional experience with the CQI standard registered for, and/or comparable technical training / supervisor / technician or engineer
- Knowledge of the Automotive Core Tools, e.g. APQP, PPAP, SPC, MSA, FMEA
- Auditor qualification on the basis of DIN EN ISO 19011 (TopQM internal auditor Module 2.0)
- Participation at Module 3.0 Understanding AIAG (within Europe).

### Training documentation:

TopQM-Systems seminar materials and handouts (process tables) in the language used for the seminar, and also as a hardcopy depending on the CQI seminar signed up for.

### Duration:

1 day inside Europe / 2 days for North America
